

R&R PRECISION CONSTRUCTION

INFRASTRUCTURE & CONTRACTING DIVISION

ATTICA, NY / WESTERN & CENTRAL NEW YORK

CAPABILITY BRIEF

BUILT FOR THE POUR. READY FOR MORE.

Concrete expertise. Regional responsiveness.
Flexible resources for larger construction scopes.

INDUSTRIAL CONCRETE / COMMERCIAL / COORDINATED TRADES

OUR STORY / OUR NEXT CHAPTER

ROOTED IN FAMILY. BUILT FOR WHAT'S NEXT.

Founded in 1970. Built through generations of family ownership.
Growing to meet the next generation of regional construction needs.

01**OUR BEGINNING / 1970**

Founded by our grandfather in 1970, R&R was built on hard work, quality craftsmanship and customer trust.

02**A LEGACY PASSED FORWARD**

Across generations, the family has carried forward hands-on experience, personal accountability and dependable service.

03**OUR NEXT CHAPTER**

We aim to expand our capacity, equipment fleet and workforce as project needs and workloads grow - pursuing larger concrete, industrial, commercial and infrastructure opportunities.

THE VISION: A REGIONAL GENERAL CONTRACTOR

Our long-term goal is to grow from a concrete-focused contractor into a trusted regional general contractor - adding people, equipment and qualified trade partners as projects demand, without losing the responsiveness of a family-run business.

01 / CONCRETE CONSTRUCTION

CONCRETE IS THE CORE

Industrial and commercial concrete packages - our primary trade.

LARGE-SCALE REINFORCED SLAB PREPARATION / ACTIVE PROJECT PHOTOGRAPHY

01 Industrial & commercial slabs

Warehouse, manufacturing and commercial floor placements; laser-screed applications.

02 Large-area concrete flatwork

Reinforced slab packages, floor placement, finishing and coordinated pour sequencing.

EQUIPMENT ADVANTAGE

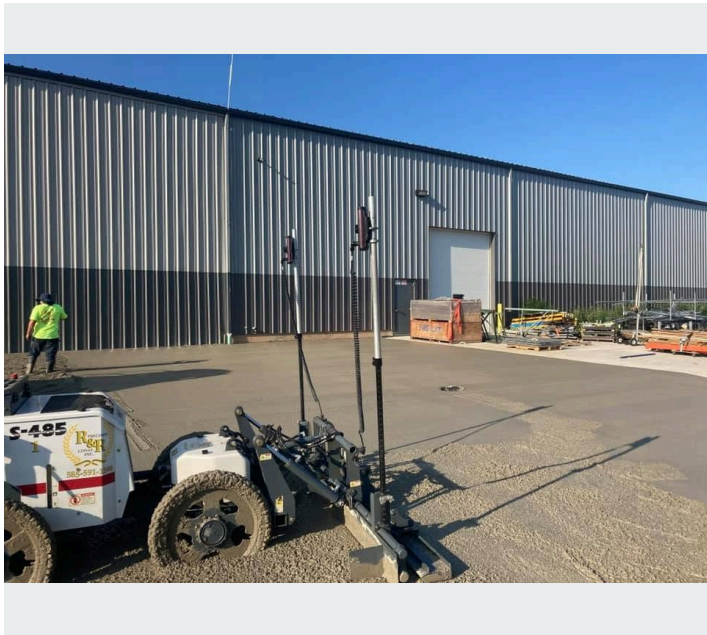

TWO COMPANY-OWNED LASER SCREEDS

A strong equipment base for planned, repeatable concrete placement.

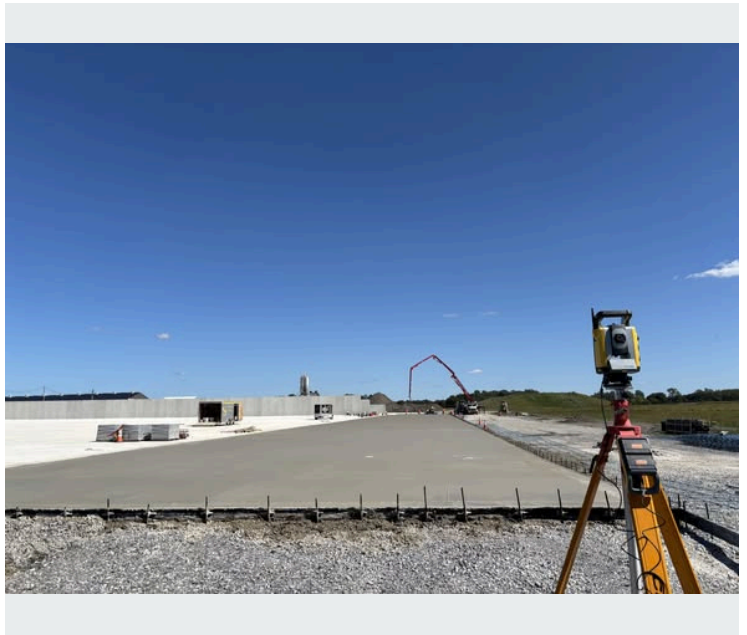

02 / CONCRETE PROJECT PORTFOLIO

FROM PREP TO FINISH

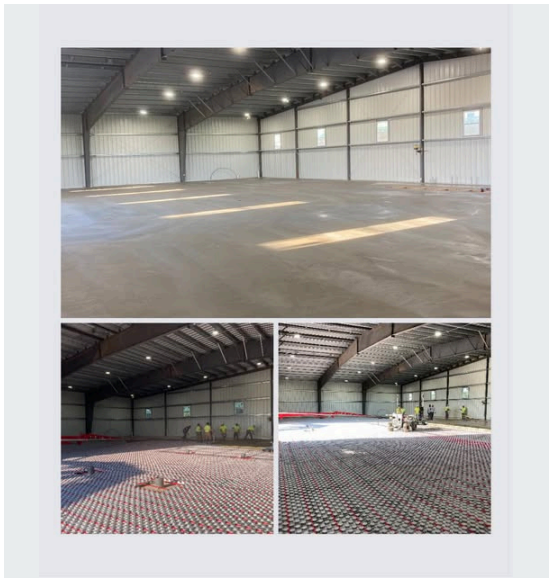

Visible experience across exterior pours, interior floors and industrial sites.

LASER-SCREED CONCRETE PLACEMENT

SITE PREPARATION & REINFORCEMENT

INTERIOR CONCRETE WORK

EXTERIOR CONCRETE FINISHING

FOUNDATIONS / FORMED CONCRETE / EQUIPMENT PADS

Scopes reviewed against drawings, resources, schedule and project requirements.

03 / EQUIPMENT & CAPACITY EXPANSION

WHAT'S NEXT

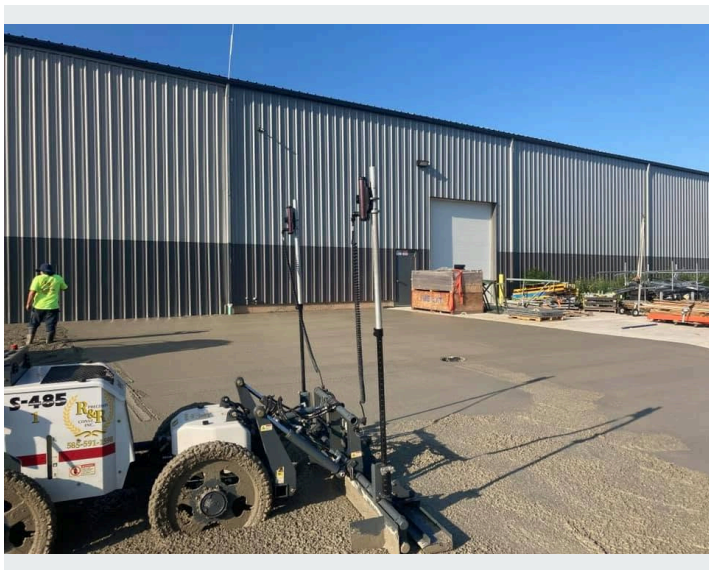

Investing in the equipment and resources to take on more demanding concrete projects.

4

LASER SCREEDS

Currently in our equipment fleet

Additional equipment on order to expand capacity

LASER-SCREED PLACEMENT IN ACTION

LARGE-SCALE CONCRETE OPERATIONS

SCALING WITH OUR CUSTOMERS

Our growing laser-screed fleet strengthens our ability to plan and execute substantial commercial and industrial concrete placements with greater scheduling flexibility and responsiveness across multiple opportunities.

Additional equipment investment, workforce growth and qualified trade partnerships will be aligned with awarded work and project requirements.

04 / SUPPORTING TRADES

MORE THAN A SLAB

Select construction support and broader scopes through defined project planning.

STRUCTURAL & AGRICULTURAL PROJECTS

INDUSTRIAL BUILDING INTERIORS

03 Building & structural work

Project-specific building and framing experience, evaluated by scope.

04 Industrial facility support

Slabs, building additions and associated concrete improvement packages.

INDUSTRIAL EXTERIOR SITE

STRUCTURAL PROJECT PHOTOGRAPHY

BROADER SCOPES, PLANNED RESPONSIBLY

Rented equipment and qualified subcontractors where required.

05 / REGIONAL DELIVERY

BUILT TO RESPOND

A practical regional partner for general contractors, owners and developers.

PROJECT PHOTOGRAPHY / BUILDING AND SITE CONSTRUCTION

01 Review the opportunity

Evaluate plans, site access, sequencing, schedule and concrete requirements.

02 Resource the scope

Align crews, company-owned equipment, rentals and qualified trade partners.

03 Coordinate execution

Plan concrete delivery and defined multi-trade work packages.

04 Build long-term relationships

Responsive communication, consistent accountability and repeat partnerships.

LET'S BUILD THE NEXT PROJECT

Industrial facilities / Warehouses / Commercial buildings
Concrete foundations / Site packages / Select coordinated scopes
